

INSTALLING THE NUHEAT FLOOR HEATING SYSTEM

1. The mats in the Nuheat Floor heating system are a mere 1/8" thick and are hidden underneath the flooring surface. The mats can be molded to fit the dimensions of any room.

2. Thinset (adhesive mortar) is laid onto the floor surface.

3. The Nuheat mat is applied to the thinset.

4. After the thinset dries, another coat of mortar is applied on top of the mat. Tile is laid and the NuHeat Floor Heating is ready to use once the mortar dries.

5. If wood flooring is used, the floor boards are laid directly upon the mat.

Nuheat Floor Heating Systems provide soothing comfort and consistent, even heat for your tile, stone, laminate, and engineered wood floors without cold spots.

WHY NUHEAT FLOOR HEATING SYSTEMS?

Nuheat Floor Heating Systems gives any room a feeling of luxurious warmth. They can also be used under shower beds and saunas. Easy to install, Nuheat Floor Heating Systems are energy efficient (12 watts per square foot) and can be controlled with a variety of thermostat options, such as floor sensors and seven-day programmable settings. All thermostats are Energy Star certified.

Nuheat Floor Heating Systems provide supplemental radiant zone heating which is considerably more efficient, compared to baseboards or radiators. This supplemental heat system allows you to heat only specific rooms. Electric radiant heat is also a power saving alternative to central systems which require you to heat the entire house.

Nuheat Floor Heating Systems are 100% maintenance free and are covered by a 25-year warranty.

WHY CHOOSE POWERHOUSE?

When it comes to floor heating systems, PowerHouse Electrical Services is the only place you need to go. We help you select the best model for your needs, install it for you, and regularly service it.

We offer competitive, upfront pricing with a wide range of payment options. We guarantee all parts and labor- in writing. It is our goal to provide you with the most prompt, personal service and highest quality workmanship.

We service New Haven, Fairfield, Litchfield, and Hartford counties.

Flex Pay options available.

A vertical advertisement for PowerHouse electrical services. At the top, the logo features a house silhouette above the word "POWERHOUSE" in large red letters, with "electrical services" in smaller black text below it. Underneath the logo, the text "Floor Heating Systems" is written in large black letters. The main image shows a bathroom with a dark granite countertop, a white sink, and a glass shower enclosure. The floor is covered in light-colored tiles. At the bottom, a red banner contains the Nuheat logo (a stylized foot) and the slogan "Change The Way You Heat" in white text.
